CV-400-60-3.5KW

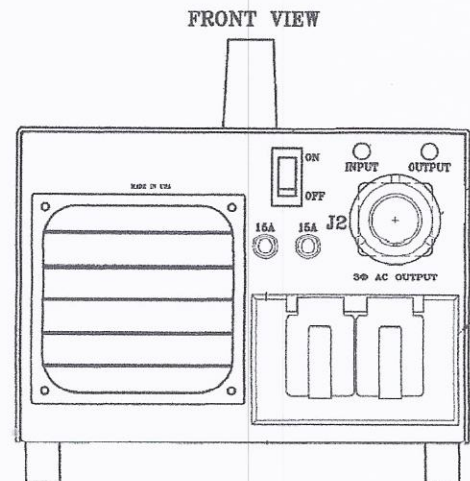

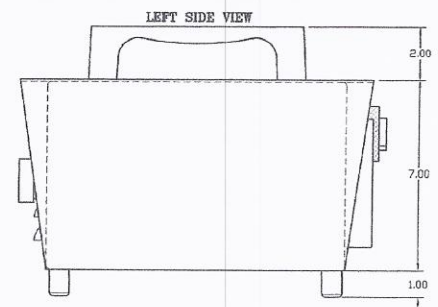

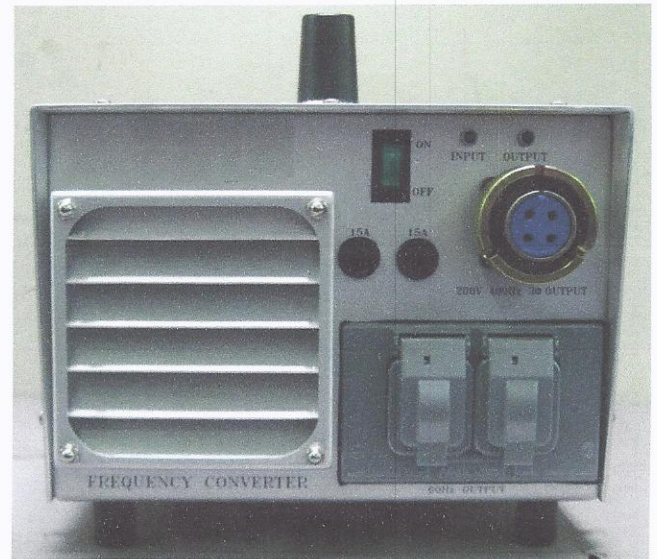

3.5 KW Sine Wave Converter

Features

The CV-400-60 is a low cost high quality 120V sine wave inverter that is usually powered by any 200 - 250V 400HZ 3-Phase generator.

With one cord from your truck it will run your 400 HZ machine and all 120V ancillary equipment such as vacuums, roto-hammers, lights, chipping guns, etc., etc.

This will save your time to hook-up separate 120V power for every job.

Specifications:

- Weight: 14 Lbs
- Size: 10" W X 10" H X 13.5" L
- Electrical
Input: 3.7 KW
200 - 250 Volts
3 Phase
400 HZ

Output: 3.5 KW
30 Amps
120 Volts
60HZ
3 Phase
